

Mission: The Botanical Society of America exists to promote botany, the field of basic science dealing with the study and inquiry into the form, function, development, diversity, reproduction, evolution, and uses of plants and their interactions within the biosphere.

The objectives of the Society are to: sustain and provide improved formal and informal education about plants; encourage basic plant research; provide expertise, direction, and position statements concerning plants and ecosystems; and foster communication within the professional botanical community, and between botanists and the rest of humankind through publications, meetings, and committees.

*Professional membership fee includes \$25 per year that will go entirely to support our student members through increased funding for Graduate Student Research Awards (GSRA). BSA is making a concerted effort to increase research award funding in the absence of DDIG awards. You can opt out of the GSRA increase.

**Non-voting, non-publishing member

Family Memberships: Family members have the same privileges as other members except they share one copy of all publications and/or mailings from the Society. Each family member can **choose their own sections/make donations. Please make these secondary choices clear or fill out a second form.**
